

VARSHITHA B C

Bangalore, Karnataka, India | +91 8073563552 | varshithabc760@gmail.com
LinkedIn: linkedin.com/in/varshithabc | GitHub: github.com/varshithabc

PROFESSIONAL SUMMARY

Detail-oriented and analytical final-year Artificial Intelligence and Machine Learning student with a strong foundation in Python, SQL, and data visualization. Skilled in data cleaning, exploratory data analysis (EDA), and dashboard development. Seeking an entry-level Data Analyst role to apply analytical and problem-solving skills in real-world business environments.

TECHNICAL SKILLS

Languages: Python, SQL, Views, Index, Store Procedure, Excel

Data Analysis: Pandas, NumPy, Excel

Visualization: Matplotlib, Power BI, DAX, Data Modeling,

Database: MySQL

Concepts: Data Cleaning, Exploratory Data Analysis (EDA), Basic Statistics

PROJECTS

Sales Data Analysis

Python, Pandas, Matplotlib

- Performed exploratory data analysis (EDA) on a sales dataset to uncover trends and patterns.
- Cleaned and processed raw data using Pandas and NumPy.
- Built visualizations using Matplotlib to identify revenue trends.

Cloth Design Generator Using Machine Learning

2026

Python, PyTorch, Stable Diffusion, Hugging Face Diffusers, FastAPI

- Built a text-to-image cloth design generator by fine-tuning a Stable Diffusion model with LoRA (Low-Rank Adaptation) for efficient training.
- Developed a full-stack web application with a FastAPI backend and HTML/CSS/JS frontend, allowing users to enter text prompts and generate custom garment designs.
- Trained and annotated the model on the Dress Code and VITON-HD fashion datasets by garment class, color, fabric, and style.
- Implemented the diffusion-based denoising pipeline (Gaussian noise addition and U-Net reconstruction) guided by text input to produce realistic, prompt-relevant designs.

Power BI Sales Dashboard

2024

Power BI, Excel

- Developed an interactive dashboard to track KPIs such as revenue and profit.
- Used filters and slicers to enable dynamic analysis.
- Presented insights to support data-driven decision making.

EDUCATION

B.E. – Artificial Intelligence and Machine Learning

2022 – 2026

BGS Institute of Technology, Karnataka | CGPA: 8.58

ACHIEVEMENTS

- Completed multiple real-world data analysis mini-projects.
- Built interactive dashboards using Power BI.
- Maintained strong academic performance with a CGPA of 8.58
